"It is now more dangerous to be a woman than to be a soldier in conflict." Major General Patrick Carnmaert, former UN Peacekeeping

WWW.2RA.CO/VAWZINE

The primary targets of GBV are women and adolescent girls, but not only are they at high risk of GBV, they also suffer exacerbated consequences as compared with what men endure. As a result of gender discrimination and their lower socio-economic status, women have fewer options and less resources at their disposal to avoid or escape abusive situations and to seek justice. They also suffer (...) consequences on their sexual and reproductive health, including forced and unwanted pregnancies, unsafe abortions and resulting deaths, traumatic stula, and higher risks of sexually transmitted infections (STIs) and HIV.

UNFPA - Addressing GBV

WE HAVE A RIGHT TO LIVE
FREE FROM VIOLENCE

WOMEN WHO'VE HAD ENOUGH ZINE.

What about violence against Men ?

We are against all forms of violence.

The most common and most pervasive form of male violence is that towards women.

In contrast to men's experience of violence, male violence against women generally takes place within family and other relationships and is often part of a pattern of longer term abuse and it affects both women and children. Impacting on long-lasting health, education and employment effects. For some, those effects are life-long.

#Only 24% cases of domestic violence are actually reported

The UK police receive a call every minute about domestic abuse, 89% of which are about a woman being abused by a man.

Amnesty International

who we are

We are women who've simply had enough of violence against women and girls.

We will help put an end to the **silence** that surrounds this issue, make it more visible and put it back in the media. We will promote shared discussion and galvanise a move to change attitudes.

Violence against women is both a consequence of and a cause of inequality between men and women.

#SOD

#STAMP OF DISAPPROVAL

It would be great if you could photograph and tweet some of your markings to #SOD or #StampOfDisapproval to show support for the project and encourage others to take part.

SHARE

Mini Manifesto

- # To make gender based violence a visible and shared issue.
- # To promote discussion on the subject of violence against women and children.
- # Galvanise Change

"Break the silence. When you witness violence against women and girls, do not sit back. Act"

Ban Ki-moon, secretary-General, United Nations

What are we doing ?

We are physically making an orange mark on the street at the exact location of every recorded violent and sexual assault in our home town. We call this our Stamp of Disapproval.

How you can take part?

Violence happens everywhere. You can do what we're doing in your locality. You can use the icon in this zine to make a stencil and then use some orange paint to mark the spot.

For more details on how to locate the crime scene go to www.2ra.co/vaw or www.2ra.co/vaw
